Chores I hate with a passion:

Chores I actually enjoy but would only admit to under torture:

Chores I actually don't mind doing:

2. You have just moved into a beautiful new house with a garden. You are currently sitting in the kitchen and trying to decide how to divide the 24 household chores in Exercise 1 between you and your two housemates.

Weekly cleaning schedule		
Housemate A	Housemate B	Housemate C
1.	1.	1.
2.	2.	2.
3.	3.	3.
4.	4.	4.
5.	5.	5.
6.	6.	6.
7.	7.	7.
8.	8.	8.

3. Things are not going well. The rent has just gone up and you are struggling to pay the bills. You have no choice but to look for a new housemate (and you three have been getting on so well). You are sitting in the same kitchen again and writing a housemate advertisement. Make sure you include what you want the new housemate to do around the house in your description.
