

Task sample, courtesy of A ;) Thank you for sharing some of your predictions and answers. The photo was actually taken at a wedding in Norwich and the woman in the photo is me wearing a wig and playing with some props. Also, I am definitely not drinking coffee ;)

In the foreground I can see a woman with a frame. In the background I can see a light green caravan. On top of the van I can see a place to rest.

The person in the photo is a woman.

I would say that she is there because she is selling coffee from the van. Maybe inside the van there is a coffee machine. Because we can see a board to the left of the caravan, maybe this board is advertising coffee.

She is wearing a yellow skirt with blue flowers and a red blazer. She has a blue handbag and nude shoes.

The girl is drinking coffee and posing like a model .

I am sure she is there because she is selling coffee from the van.

I imagine that the person in the photo is very happy.

I guess that it is spring, because it is cloudy and it looks like it will rain.

The photo was taken by this woman's friend because we are always happy and have fun with our friends.

I expect that after the photo was taken the woman picked up the umbrella and she finished drinking coffee.

Before the photo was taken the girl asked her friend: *Can you take a picture of me?* I have to post it on Facebook .

Perhaps what I like most about this photo is that it is not a typical photo.

This photo is perfect for a schoolbook, because we have a lot of things to describe.

I suppose teachers would like this photo, like I said, it is perfect for learning languages.

This photo makes me feel very happy and thirsty.

I like this photo because it's very artistic.

The end
