

Dear Karolina,

It's been a long time since we last spoke. I have enjoyed a **wonderful revitalizing** holiday and I wanted to take the opportunity to tell you what I have done this summer.

As every year I went to the beach. You know that I love visiting it every year, for all the benefits it gives me. The sea is synonymous with health and energy. I love the **soft comforting** sound of the waves as well as **warm peaceful** sunsets.

This year I have yet again stayed in my mother's **bright refurbished** house in Denia, where I was able to rest and gather strength before having to face the **unpleasant and boring** work routine. I did all kinds of activities ranging from visiting my favourite beach, Les Deveses, a **magical charming** place, to discovering new coves in Jávea, such as the **mysterious unknown** Cala Ambolo, located on a **sinuous precipitous** cliff.

In addition, I ate out in restaurants with **tasty exquisite** menus. I remember one in particular, Agua de Mar, where I could taste **delicious fresh** seafood that was of the highest quality. We went to that restaurant after having spent an **intense exciting** morning on a boat, sailing the seas and discovering **secluded virgin** beaches.

Finally, I was able to see my **dear funny** friends, whom I had not seen for two years due to this **horrible hateful** pandemic that we all experienced. Luckily everyone is fine and they keep asking about you. I'm looking forward to you coming here again and seeing Marta who, by the way, has had a **cute blonde** baby!

I hope you also had an **enriching well-deserved** holiday.

Lots of kisses,

G.
